Item 2.02 Results of Operations and Financial Condition

On January 27, 2021, Landstar System, Inc. ("Landstar" or the "Company") issued a press release announcing results for the fourth quarter of fiscal 2020. A copy of the press release is attached hereto as Exhibit 99.1.

The information contained in Item 7.01 concerning the presentation to Landstar investors is hereby incorporated into this Item 2.02 by reference.

The information furnished under Item 2.02 of this Current Report on Form 8-K, including Exhibit 99.1 hereto, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933.

### Item 7.01 Regulation FD Disclosure

A slide presentation, dated January 27, 2021, is attached hereto as Exhibit 99.2 and is incorporated herein by reference. The slide presentation provides information that may be referred to by the Company on its conference call with investors scheduled to occur on January 28, 2021 in connection with the Company's release of results for the fourth quarter of fiscal 2020.

In the slide presentation attached hereto as Exhibit 99.2, the Company provides the following information that may be deemed a non-GAAP financial measure: (1) operating margin in the 2020 fiscal year period was 45.9%, excluding the impact of \$15.5 million in one-time costs related to the buyout of certain incentive commission arrangements with several of the Company's independent commission sales agents due to the Company's discontinuation of a truck owner-operator recruitment and retention program formerly involving those agents (the "Commission Program Termination Costs") and \$12.6 million in one-time costs due to pandemic relief incentive payments made to the Company's independent commission sales agents and BCO independent contractors in April and May 2020; and (2) operating margin was 54.8% in the 2020 fourth quarter period, excluding the Commission Program Termination Costs.

Management believes that it is appropriate to present this financial information for the following reasons: (1) disclosure of these matters will allow investors to better understand the underlying trends in the Company's financial condition and results of operations; (2) this information will facilitate comparisons by investors of the Company's results as compared to the results of peer companies; and (3) management considers this financial information in its decision making.

The information furnished under Item 7.01 of this Current Report on Form 8-K, including Exhibit 99.2 hereto, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933.

#### LANDSTAR SYSTEM REPORTS ALL-TIME QUARTERLY RECORDS WITH REVENUE OF \$1.296 BILLION AND DILUTED EARNINGS PER SHARE OF \$1.70 IN THE 2020 FOURTH QUARTER

Jacksonville, FL - Landstar System, Inc. (NASDAQ: LSTR) reported all-time quarterly records with revenue of \$1.296 billion and diluted earnings per share of \$1.70 in the 2020 fourth quarter. Diluted earnings per share in the quarter included a previously announced one-time cost of \$15.5 million, or \$0.31 per diluted share, related to buyouts of certain incentive commission arrangements with several of its independent sales agents due to the Company's discontinuation of a truck owner-operator recruitment and retention program formerly involving those agents. Landstar reported revenue of \$994.9 million and diluted earnings per share of \$1.27 in the 2019 fourth quarter. Gross profit in the 2020 fourth quarter of \$182.4 million, 23 percent above 2019 fourth quarter gross profit of \$148.7 million, was also an all-time Landstar quarterly record.

Truck transportation revenue hauled by independent business capacity owners ("BCOs") and truck brokerage carriers in the 2020 fourth quarter was \$1,201.7 million, or 93 percent of revenue, compared to \$911.8 million, or 92 percent of revenue, in the 2019 fourth quarter. Truckload transportation revenue hauled via van equipment in the 2020 fourth quarter was \$821.0 million compared to \$571.8 million in the 2019 fourth quarter. Truckload transportation revenue hauled via unsided/platform equipment in the 2020 fourth quarter was \$354.1 million compared to \$315.2 million in the 2019 fourth quarter compared to \$63.0 million, or 6 percent of revenue, in the 2020 fourth quarter compared to \$63.0 million, or 6 percent of revenue, in the 2019 fourth quarter.

Return on average shareholders' equity was 28 percent and return on invested capital, representing net income divided by the sum of average equity plus average debt, was 25 percent in fiscal year 2020. Landstar purchased approximately 1,179,000 shares of its common stock during fiscal year 2020 at an aggregate cost of approximately \$116.0 million. The Company currently is authorized to purchase up to 1,821,030 shares of the Company's common stock under its previously announced share purchase program. As previously disclosed by the Company in a Form 8-K filed with the Securities and Exchange Commission on December 9, 2020, its Board of Directors declared a special one-time cash dividend in the amount of \$2.00 per share that was paid on January 22, 2021, to stockholders of record as of the close of business on January 8, 2021. In addition, Landstar announced today that its Board of Directors has declared a quarterly dividend of \$0.21 per share payable on March 12, 2021, to stockholders of record as of the lose of business on February 15, 2021. It is currently the intention of the Board to pay dividends on a quarterly basis going forward. As of December 26, 2020, the Company had \$216 million available for borrowings under the Company's senior credit facility, with the ability to increase borrowings to \$366 million using the facility's accordion feature.

"Landstar's 2020 fourth quarter performance was outstanding," said Landstar President and CEO Jim Gattoni. "Revenue, gross profit, and diluted earnings per share were each all-time quarterly records. Additionally, excluding the \$15.5 million one-time cost to buyout certain incentive commission arrangements with several agents, operating income and operating margin in the 2020 fourth quarter would have achieved all-time quarterly records. Revenue from truck loads hauled via van equipment exceeded the 2019 fourth quarter by 44 percent and revenue from truck loads hauled via unsided/platform equipment exceeded the 2019 fourth quarter by 12 percent. Consumer demand for durables, building products and e-commerce drove record van quarterly revenue. For loads hauled via van equipment in the 2020 fourth quarter compared to the 2019 fourth quarter, the number of loads increased 16 percent and revenue per load increased 24 percent. Moreover, the fourth quarter was the only quarter of fiscal year 2020 in which revenue from truck loads hauled via unsided/platform equipment exceeded that of the corresponding prior year quarter. The number of loads and revenue per load increased 20 fourth quarter exceeded the 2019 fourth quarter was the only quarter of fiscal year 2020 in which revenue from truck loads hauled via unsided/platform equipment in the 2020 fourth quarter exceeded the 2019 fourth quarter of percent and revenue per load increased 24 percent. Moreover, the fourth quarter was the only quarter of fiscal year 2020 in which revenue from truck loads hauled via unsided/platform equipment in the 2020 fourth quarter exceeded the 2019 fourth quarter by 7 percent and 5 percent, respectively."

Gattoni continued, "In our third quarter earnings release on October 21, 2020, we provided fourth quarter revenue guidance of \$1.15 billion to \$1.20 billion and fourth quarter diluted earnings per share guidance of \$1.32 to \$1.42. On November 17, 2020, we disclosed in a Form 8-K filed with the SEC and further explained at a webcast investor conference the next day that based on overall market conditions, we expected 2020 fourth quarter revenue and diluted earnings per share for the 2020 fourth quarter to be slightly above the high end of the previously issued guidance. The updated guidance provided on November 17, 2020 reflected truck load volume that at the time was trending near the high end of the previous guidance of high single digit percentage growth and revenue per load on loads hauled via truck trending above the 2019 fourth quarter in a mid-teen percentage range, as compared to the low double-digit percentage range reflected in our previously issued guidance. The year-over-year growth in the number of loads and revenue per load on loads hauled via truck trending above the 700 Cotober, with exceptional strength in substitute line haul services provided in support of e-commerce related demand during the holiday peak season. The number of loads hauled via truck in October, November and December over the corresponding months of 2019 by 15 percent, 17 percent and 18 percent, respectively, while revenue per load on loads hauled via truck increased in October, November and December over the corresponding months of 2019 by 15 percent, 17 percent and 18 percent, respectively. Overall, truck load volume increased in the 2020 fourth quarter by 13% as compared to the 2019 fourth quarter, and truck revenue per load increased by 17% as compared to the 2019 fourth quarter. Ultimately, revenue in the 2020 fourth quarter was \$1.296 billion and diluted earnings per share for the 2020 fourth quarter.

Gattoni commented, "The achievement of revenue in excess of our guidance updated on November 17, 2020, primarily resulted from the continuing sequential increases Landstar experienced in the number of loads and revenue per load on loads hauled via truck from mid-November through the end of the fiscal year. Diluted earnings per share of \$1.70 in the 2020 fourth quarter significantly exceeded the high end of our initial guidance of \$1.42 due to the increase in revenue, actual insurance and claims costs that came in below the 4.8 percent of BCO revenue used in our previous guidance, and a lower effective income tax rate in the fourth quarter than initially anticipated."

Gattoni further stated, "Landstar's financial performance in 2020 was exceptional given the unprecedented impact of the COVID-19 pandemic on the U.S. economy and supply chains throughout the world, the softness in the U.S. manufacturing sector throughout the year, the transition of over 80 percent of the Company's employees to work remotely beginning in March and the many other challenges experienced by Landstar customers, employees, agents, BCOs and other third party capacity providers in managing through the business and personal disruptions caused by the pandemic. The sudden closing of manufacturing facilities in the U.S. adversely impacted the financial results of Landstar's 2020 second quarter with a decrease in diluted earnings per share of almost 60 percent compared to the 2019 second quarter. In light of the softness in U.S. manufacturing that continued beyond the 2020 second quarter, the Company's financial performance in the back half of 2020 was remarkable. Revenue, gross profit, operating income and diluted earnings per share exceeded the back half of 2019 by 19 percent, 14 percent, 22 percent and 27 percent, respectively. Additionally, the Company ended the year with a record number of trucks provided by BCOs and a record number of approved third-party truck brokerage carriers. The resiliency of Landstar's variable cost, light asset-based business model continues to shine."

Gattoni continued, "January of any given year is typically the slowest month of the year. Through the first several weeks of January, the macroeconomic environment experienced throughout the back half of 2020 continued, characterized by strong consumer demand, relative softness in the U.S. industrial/manufacturing sector relative to sectors servicing consumers, and tight available truck capacity. I anticipate demand for substitute line haul services in the 2021 first quarter will return to the still very strong levels we experienced throughout September and October, before the steep spike in demand that took place during the holiday peak season. I expect these market conditions throughout the remainder of the 2021 first quarter and, as a result, revenue and diluted earnings per share in the 2021 first quarter to be well above that of the 2020 first quarter. From a revenue standpoint, I expect the number of loads hauled via truck in the 2021 first quarter to exceed the 2020 first quarter in a high single-digit percentage range.

I expect revenue per load on loads hauled via truck in the 2021 first quarter to exceed the 2020 first quarter in a mid-teen percentage range. As such, I anticipate revenue for the 2021 first quarter to be in a range of \$1.10 billion to \$1.15 billion."

Gattoni concluded, "Based on the range of revenue estimated for the 2021 first quarter, I would anticipate diluted earnings per share to be in a range of \$1.55 to \$1.65. This range of diluted earnings per share includes insurance and claims expense estimated at 4.6 percent of BCO revenue."

### Forward Looking Statements Disclaimer:

The following is a "safe harbor" statement under the Private Securities Litigation Reform Act of 1995. Statements made in this slide presentation that are not based on historical facts are "forward looking statements." This presentation may make certain statements containing forward-looking statements, such as statements which relate to Landstar's business objectives, plans, strategies and expectations. Such statements are by nature subject to uncertainties and risks, including but not limited to: the impact of the coronavirus (COVID-19) pandemic and the operational, financial and legal risks detailed in Landstar's Form 10-K for the 2019 fiscal year, described in the section Risk Factors, and other SEC filings from time to time. These risks and uncertainties could cause actual results or events to differ materially from historical results or those anticipated. Investors should not place undue reliance on such forward-looking statements, and Landstar undertakes no obligation to publicly update or revise any forward-looking statements.

### Non-GAAP Financial Measures:

In this slide presentation, the Company provides the following information that may be deemed a non-GAAP financial measure: (1) operating margin in the 2020 fiscal year period, excluding the impact of the one-time costs to buyout certain incentive commission arrangements with several agents (the "Commission Buyout Costs") and the one-time costs of pandemic relief incentive payments made to the Company's agents and BCOs in April and May 2020; and (2) operating margin in the 2020 fourth quarter period, excluding the Commission Buyout Costs.

Management believes that it is appropriate to present this financial information for the following reasons: (1) disclosure of these matters will allow investors to better understand the underlying trends in the Company's financial condition and results of operations; (2) this information will facilitate comparisons by investors of the Company's results as compared to the results of peer companies; and (3) management considers this financial information in its decision making.
