PART I — FINANCIAL INFORMATION

Item 1. Financial Statements

The interim consolidated financial statements contained herein reflect all adjustments (all of a normal, recurring nature) which, in the opinion of management, are necessary for a fair statement of the financial condition, results of operations, cash flows and changes in shareholders' equity for the periods presented. They have been prepared in accordance with Rule 10-01 of Regulation S-X and do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. Operating results for the thirty nine weeks ended September 27, 2008 are not necessarily indicative of the results that may be expected for the entire fiscal year ending December 27, 2008.

These interim financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's 2007 Annual Report on Form 10-K.

LANDSTAR SYSTEM, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The consolidated financial statements include the accounts of Landstar System, Inc. and its subsidiary, Landstar System Holdings, Inc., and reflect all adjustments (all of a normal, recurring nature) which are, in the opinion of management, necessary for a fair statement of the results for the periods presented. The preparation of the consolidated financial statements requires the use of management's estimates. Actual results could differ from those estimates. Landstar System, Inc. and its subsidiary are herein referred to as "Landstar" or the "Company."

(1) Share-based Payments

As of September 27, 2008, the Company had two employee stock option plans and one stock option plan for members of its Board of Directors (the "Plans"). Amounts recognized in the financial statements with respect to these Plans are as follows (in thousands):

	Thirty Nine Weeks Ended		Thirteen Weeks Ended	
	Sept 27, 2008	Sept 29, 2007	Sept 27, 2008	Sept 29, 2007
Total cost of the Plans during the period	\$ 4,994	\$ 5,500	\$ 1,642	\$ 1,856
Amount of related income tax benefit recognized during the period	1,534	1,732	474	547
Net cost of the Plans during the period	<u>\$ 3,460</u>	<u>\$ 3,768</u>	<u>\$ 1,168</u>	<u>\$ 1,309</u>

The fair value of each option grant on its grant date was calculated using the Black-Scholes option pricing model with the following weighted average assumptions for grants made in the 2008 and 2007 thirty-nine-week periods:

	2008	2007
Expected volatility	33.0%	33.0%
Expected dividend yield	0.375%	0.300%
Risk-free interest rate	3.00%	4.75%
Expected lives (in years)	4.1	4.2

The Company utilizes historical data, including exercise patterns and employee departure behavior, in estimating the term options will be outstanding. Expected volatility was based on historical volatility and other factors, such as expected changes in volatility arising from planned changes to the Company's business, if any. The risk-free interest rate was based on the yield of zero coupon U.S. Treasury bonds for terms that approximated the terms of the options granted. The weighted average grant date fair value of stock options granted during the thirty-nine-week periods ended September 27, 2008 and September 29, 2007 was \$12.60 and \$14.26, respectively.

The following table summarizes information regarding the Company's stock options under the Plans:

	Number of Options	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (000s)
Options outstanding at December 29, 2007	2,199,308	\$ 31.10		
Granted	777,500	\$ 42.30		
Exercised	(467,164)	\$ 26.22		
Forfeited	(3,000)	\$ 44.74		
Options outstanding at September 27, 2008	<u>2,506,644</u>	\$ 35.47	7.2	\$ 21,023
Options exercisable at September 27, 2008	<u>820,211</u>	\$ 30.72	5.8	\$ 10,780

[Table of Contents](#)

As of September 27, 2008, there were 5,372,544 shares of the Company's common stock reserved for issuance upon exercise of options granted and to be granted under the Plans.

The total intrinsic value of stock options exercised during the thirty-nine-week periods ended September 27, 2008 and September 29, 2007 was \$11,587,000 and \$16,502,000, respectively. The total intrinsic value of stock options exercised during the thirteen-week periods ended September 27, 2008 and September 29, 2007 was \$1,541,000 and \$6,415,000, respectively.

As of September 27, 2008, there was \$13,110,000 of total unrecognized compensation cost related to non-vested stock options granted under the Plans. The compensation cost related to these non-vested options is expected to be recognized over a weighted average period of 3.4 years.

Under the Directors' Stock Compensation Plan, outside members of the Board of Directors who are elected or re-elected to the Board receive 6,000 shares of common stock of the Company, subject to certain restrictions including restrictions on transfer. The Company issued an aggregate of 12,000 shares of its common stock in each of the thirty-nine-week periods ended September 27, 2008 and September 29, 2007, to members of the Board of Directors re-elected at, respectively, the 2008 and 2007 annual stockholders' meetings. On July 19, 2007, 1,577 shares of the Company's common stock were issued to a member of the Board of Directors upon such member's election to the Board of Directors. During the 2008 and 2007 thirty-nine-week periods, the Company reported \$634,000 and \$678,000, respectively, in compensation expense representing the fair market value of these share awards. As of September 27, 2008, there were 138,423 shares of the Company's common stock reserved for issuance upon the grant of common stock under the Directors' Stock Compensation Plan.

(2) Debt

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the "Credit Agreement"). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees. The initial borrowing of \$67,000,000 under the Credit Agreement was used to refinance \$67,000,000 of outstanding borrowings under the prior credit agreement, which was terminated in connection with the Credit Agreement. Borrowings under the Credit Agreement are unsecured, however, all but two of the Company's subsidiaries guarantee the obligations under the Credit Agreement. All amounts outstanding under the Credit Agreement are payable on June 27, 2013, the expiration date of the Credit Agreement.

Borrowings under the Credit Agreement bear interest at rates equal to, at the option of the Company, either (i) the greater of (a) the prime rate as publicly announced from time to time by JPMorgan Chase Bank, N.A. and (b) the federal funds effective rate plus 0.5%, or, (ii) the rate at the time offered to JPMorgan Chase Bank, N.A. in the Eurodollar market for amounts and periods comparable to the relevant loan plus, in either case, a margin that is determined based on the level of the Company's Leverage Ratio, as defined in the Credit Agreement. The unused portion of the revolving credit facility under the Credit Agreement carries a commitment fee determined based on the level of the Leverage Ratio, as therein defined. The commitment fee for the unused portion of the revolving credit facility under the Credit Agreement ranges from .175% to .35%, based on achieving certain levels of the Leverage Ratio. As of September 27, 2008, the weighted average interest rate on borrowings outstanding was 3.90%.

The Credit Agreement contains a number of covenants that limit, among other things, the incurrence of additional indebtedness. The Company is required to, among other things, maintain a minimum Fixed Charge Coverage Ratio, as defined in the Credit Agreement, and maintain a Leverage Ratio below a specified maximum. The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement under certain circumstances limits the amount of such cash dividends and other distributions to stockholders in the event that, after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter. The Credit Agreement provides for an event of default in the event, among other things, that a person or group acquires 25% or more of the outstanding capital stock of the Company or obtains the power to elect a majority of the Company's directors. None of these covenants are presently considered by management to be materially restrictive to the Company's operations, capital resources or liquidity. The Company is currently in compliance with all of the debt covenants under the Credit Agreement.

(3) Income Taxes

The provisions for income taxes for each of the 2008 and 2007 thirty-nine-week periods were based on estimated full year combined effective income tax rates of approximately 38.4% and 38.7%, respectively, which were higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock-based compensation.

[Table of Contents](#)

(4) Earnings Per Share

Earnings per common share amounts are based on the weighted average number of common shares outstanding and diluted earnings per share amounts are based on the weighted average number of common shares outstanding plus the incremental shares that would have been outstanding upon the assumed exercise of all dilutive stock options.

The following table provides a reconciliation of the average number of common shares outstanding used to calculate earnings per share to the average number of common shares and common share equivalents outstanding used to calculate diluted earnings per share (in thousands):

	Thirty Nine Weeks Ended		Thirteen Weeks Ended	
	Sept 27, 2008	Sept 29, 2007	Sept 27, 2008	Sept 29, 2007
Average number of common shares outstanding	52,680	55,221	52,586	54,189
Incremental shares from assumed exercises of stock options	462	519	442	419
Average number of common shares and common share equivalents outstanding	53,142	55,740	53,028	54,608

(5) Additional Cash Flow Information

During the 2008 thirty-nine-week period, Landstar paid income taxes and interest of \$47,584,000 and \$6,258,000, respectively. During the 2007 thirty-nine-week period, Landstar paid income taxes and interest of \$45,441,000 and \$5,289,000, respectively. Landstar acquired operating property by entering into capital leases in the amount of \$2,714,000 and \$27,461,000 in the 2008 and 2007 thirty-nine-week periods, respectively.

(6) Segment Information

Historically, the Company reported the results of three operating segments: the carrier segment, the global logistics segment and the insurance segment. Beginning in the thirteen week period ended March 29, 2008, the Company revised the presentation format of its segment disclosure to consolidate the previously reported three segments to two segments: the transportation logistics segment and the insurance segment. This change in segment reporting reflected increased centralization and consolidation of certain administrative and sales functions across all of the Company's operating subsidiaries and the increased similarity of the services provided by the operations of the Company's various operating subsidiaries, primarily with respect to truck brokerage services. As a result of this change in presentation, the revenue and operating results formerly separated into the carrier and global logistics segments, together with corporate overhead, which was previously included as "other" in the segment information, were consolidated into the transportation logistics segment. This change in segment reporting had no impact on the Company's consolidated balance sheets, statements of income, statements of cash flows or statements of changes in shareholders' equity for any periods. This change in segment reporting also had no impact on financial reporting with respect to the Company's insurance segment. Prior period segment information has been adjusted to reflect the change in segment reporting.

The following tables summarize information about Landstar's reportable business segments as of and for the thirty-nine-week and thirteen-week periods ended September 27, 2008 and September 29, 2007 (in thousands):

	Thirty Nine Weeks Ended					
	Sept 27, 2008			Sept 29, 2007		
	Transportation Logistics	Insurance	Total	Transportation Logistics	Insurance	Total
External revenue	\$2,011,766	\$27,466	\$2,039,232	\$1,816,751	\$27,661	\$1,844,412

	Thirteen Weeks Ended					
	Sept 27, 2008			Sept 29, 2007		
	Transportation Logistics	Insurance	Total	Transportation Logistics	Insurance	Total
External revenue	\$ 723,535	\$ 9,218	\$732,753	\$ 625,581	\$ 9,230	\$634,811
Investment income		817	817		1,106	1,106
Internal revenue		5,852	5,852		6,196	6,196
Operating income	44,611	10,079	54,690	38,071	11,577	49,648

(7) Comprehensive Income

The following table includes the components of comprehensive income for the thirty-nine-week and thirteen-week periods ended September 27, 2008 and September 29, 2007 (in thousands):

	Thirty Nine Weeks Ended		Thirteen Weeks Ended	
	Sept 27, 2008	Sept 29, 2007	Sept 27, 2008	Sept 29, 2007
Net income	\$ 86,325	\$ 80,622	\$ 32,817	\$ 29,348
Unrealized holding losses on available-for-sale investments, net of income taxes	(505)	—	(368)	(15)
Comprehensive income	\$ 85,820	\$ 80,622	\$ 32,449	\$ 29,333

Accumulated other comprehensive loss at September 27, 2008 of \$448,000 represents the unrealized holding losses on available-for-sale investments of \$694,000, net of related income tax benefits of \$246,000.

(8) Commitments and Contingencies

As of September 27, 2008, Landstar had \$28,032,000 of letters of credit outstanding under the Company's revolving credit facility and \$48,148,000 of letters of credit secured by investments held by the Company's insurance segment. Short-term investments include \$4,005,000 in current maturities of investment grade bonds and \$21,722,000 of cash equivalents held by the Company's insurance segment at September 27, 2008. These short-term investments together with \$15,344,000 of the non-current portion of investment grade bonds and \$9,012,000 of cash equivalents included in other assets at September 27, 2008, provide collateral for the \$48,148,000 of letters of credit issued to guarantee payment of insurance claims.

As further described in periodic and current reports previously filed by Landstar System, Inc. (the "Company") with the Securities and Exchange Commission, the Company and certain of its subsidiaries (the "Defendants") are defendants in a suit (the "Litigation") brought in the United States District Court for the Middle District of Florida (the "District Court") by the Owner-Operator Independent Drivers Association, Inc. ("OOIDA") and four former BCO Independent Contractors (the "Named Plaintiffs" and, with OOIDA, the "Plaintiffs") on behalf of all independent contractors who provide truck capacity to the Company and its subsidiaries under exclusive lease arrangements (the "BCO Independent Contractors"). The Plaintiffs allege that certain aspects of the Company's motor carrier leases and related practices with its BCO Independent Contractors violate certain federal leasing regulations and seek injunctive relief, an unspecified amount of damages and attorneys' fees.

On March 29, 2007, the District Court denied the request by Plaintiffs for injunctive relief, entered a judgment in favor of the Defendants and issued written orders setting forth its rulings related to the decertification of the plaintiff class and other important elements of the Litigation relating to liability, injunctive relief and monetary relief. The Plaintiffs filed an appeal with the United States Court of Appeals for the Eleventh Circuit (the "Appellate Court") of certain of the District Court's rulings in favor of the Defendants. The Defendants asked the Appellate Court to affirm such rulings and filed a cross-appeal with the Appellate Court with respect to certain other rulings of the District Court.

[Table of Contents](#)

On September 3, 2008, the Appellate Court issued its ruling, which, among other things, affirmed the District Court's rulings that (i) the Defendants are not prohibited by the applicable federal leasing regulations from charging administrative or other fees to BCO Independent Contractors in connection with voluntary programs offered by the Defendants through which a BCO Independent Contractor may purchase discounted products and services for a charge that is deducted against the compensation payable to the BCO Independent Contractor (a "Charge-back Deduction"), (ii) the Plaintiffs are not entitled to restitution or disgorgement with respect to violations by Defendants of the applicable federal leasing regulations but instead may recover only actual damages, if any, which they sustained as a result of any such violations and (iii) the claims of BCO Independent Contractors may not be handled on a class action basis for purposes of determining the amount of actual damages, if any, they sustained as a result of any violations. Further, the analysis of the Appellate Court confirmed the absence of any violations alleged by the Plaintiffs of the federal leasing regulations with respect to the written terms of all leases currently in use between the Defendants and BCO Independent Contractors.

However, the ruling of the Appellate Court reversed the District Court's rulings (i) that an old version of the lease formerly used by Defendants but not in use with any current BCO Independent Contractor complied with applicable disclosure requirements under the federal leasing regulations with respect to adjustments to compensation payable to BCO Independent Contractors on certain loads sourced from the U. S. Dept. of Defense, and (ii) that the Defendants had provided sufficient documentation to BCO Independent Contractors under the applicable federal leasing regulations relating to how the component elements of Charge-back Deductions were computed. The Appellate Court then remanded the case to the District Court to permit the Plaintiffs to seek injunctive relief with respect to these violations of the federal leasing regulations and to hold an evidentiary hearing to give the Named Plaintiffs an opportunity to produce evidence of any damages they actually sustained as a result of such violations.

Each of the parties to the Litigation has filed a petition with the Appellate Court seeking rehearing of the Appellate Court's ruling; however, there can be no assurance that any petition for rehearing will be granted.

Although no assurances can be given with respect to the outcome of the Litigation, including any possible award of attorneys' fees to the Plaintiffs, the Company believes that (i) no Plaintiff has sustained any actual damages as a result of any violations by the Defendants of the federal leasing regulations and (ii) injunctive relief, if any, that may be granted by the District Court on remand is unlikely to have a material adverse financial effect on the Company.

The Company is involved in certain other claims and pending litigation arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such other claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

(9) Concentrations of Credit Risk in Key Customers

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of accounts receivable from trade customers. The Company performs ongoing credit evaluations of the financial condition of its customers and an allowance for doubtful accounts is maintained as required under U.S. generally accepted accounting principles. Credit risk with respect to the Company's accounts receivable historically has been broadly diversified due to the large number of entities comprising the Company's customer base and their dispersion across many different industries and geographical regions. No single customer accounted for more than 10% of Company revenue for the thirty-nine-week period ended September 27, 2008, and no single customer accounted for more than 10% of the gross accounts receivable balance at September 27, 2008. It should be noted, however, that revenue from customers in the automotive sector represented in the aggregate approximately 7% of the Company's revenue for the 2008 thirty-nine-week period. The Company estimates that receivable balances relating to customers with a significant concentration of their business either in the automotive industry or directly impacted by the financial condition of the larger U.S. domestic automobile manufacturers represented approximately 6% to 8% of gross accounts receivable at September 27, 2008. The financial condition of the U.S. domestic automotive industry may be significantly adversely affected by the availability of credit to U.S. consumers and the overall financial condition of the U.S. economy, both of which have recently weakened. A significant deterioration in the financial condition or operations of the Company's customers within the automotive sector, including the larger U.S. domestic automobile manufacturers and their vendors, suppliers and other service providers, could negatively impact the collectability of trade accounts receivable due from these customers, which could result in an adverse effect on the Company's operating results in a given quarter or year.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the attached interim consolidated financial statements and notes thereto, and with the Company's audited financial statements and notes thereto for the fiscal year ended December 29, 2007 and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 2007 Annual Report on Form 10-K.

Introduction

Landstar System, Inc. and its subsidiary, Landstar System Holdings, Inc. (together, referred to herein as “Landstar” or the “Company”), provide transportation and logistics services to a variety of market niches throughout the United States and to a lesser extent in Canada, and between the United States and Canada, Mexico and other countries through its operating subsidiaries. Landstar’s business strategy is to be a non-asset based provider of transportation capacity and logistics services delivering safe, specialized transportation services, utilizing a network of independent commission sales agents, third party capacity providers and employees. Landstar focuses on providing transportation and logistics services which emphasize safety, customer service and information coordination among its independent commission sales agents, customers and capacity providers. The Company markets its services primarily through independent commission sales agents and utilizes third party capacity providers exclusively to handle customers’ freight. The nature of the Company’s business is such that a significant portion of its operating costs varies directly with revenue.

Historically, the Company reported the results of three operating segments: the carrier segment, the global logistics segment and the insurance segment. Beginning in the thirteen-week period ended March 29, 2008, the Company revised the presentation format of its segment disclosure to consolidate the previously reported three segments to two segments: the transportation logistics segment and the insurance segment. This change in segment reporting reflected increased centralization and consolidation of certain administrative and sales functions across all of the Company’s operating subsidiaries and the increased similarity of the services provided by the operations of the Company’s various operating subsidiaries, primarily with respect to truck brokerage services. As a result of this change in presentation, the revenue and operating results formerly separated into the carrier and global logistics segments, together with corporate overhead, which was previously included as “other” in the segment information, were consolidated into the transportation logistics segment. This change in reporting had no impact on reporting with respect to the insurance segment.

The transportation logistics segment markets its services primarily through independent commission sales agents. Each of the independent commission sales agents has the opportunity to market all of the services provided by the transportation logistics segment. This segment provides a wide range of transportation and logistics services, including truckload transportation, rail intermodal, the arrangement of multimodal (ground, air, ocean and rail) moves, expedited transportation services, air cargo and ocean cargo services and warehousing. Truckload services primarily are provided for a wide range of general commodities, much of which are over irregular or non-repetitive routes, utilizing dry and specialty vans and unsided trailers, including flatbed, drop deck and specialty trailers. Available truckload services also include short-to-long haul movement of containers by truck and expedited ground and dedicated power-only truck capacity. These services are provided by independent contractors who provide truck capacity to the Company under exclusive lease arrangements (the “BCO Independent Contractors”) and other third party truck capacity providers under non-exclusive contractual arrangements (“Truck Brokerage Carriers”). Rail intermodal, air and ocean services are provided by third party railroad, air and ocean cargo carriers. The Company has contracts with all of the Class 1 domestic railroads and certain Canadian railroads and contracts with domestic and international airlines and ocean lines. Warehousing services are provided by independent contractors who provide warehouse capacity to the Company under non-exclusive contractual arrangements (“Warehouse Capacity Owners”). As of September 27, 2008, Landstar had 118 Warehouse Capacity Owners under contract. During the thirty-nine weeks ended September 27, 2008, revenue hauled by BCO Independent Contractors, Truck Brokerage Carriers, rail intermodal, air cargo carriers and ocean cargo carriers represented 53%, 38%, 5%, 1%, and 2%, respectively, of the Company’s transportation logistics segment revenue. In addition, during the thirty-nine-week period ended September 27, 2008, revenue for bus capacity provided for evacuation assistance related to the storms that impacted the Gulf Coast in September 2008 (“Bus Revenue”) represented 1% of the Company’s transportation logistics segment revenue.

The insurance segment is comprised of Signature Insurance Company (“Signature”), a wholly owned offshore insurance subsidiary, and Risk Management Claim Services, Inc. The insurance segment provides risk and claims management services to Landstar’s operating subsidiaries. In addition, it reinsures certain risks of the Company’s BCO Independent Contractors and provides certain property and casualty insurance directly to Landstar’s operating subsidiaries. Revenue, representing premiums on reinsurance programs provided to the Company’s BCO Independent Contractors, at the insurance segment represented approximately 1% of total revenue for the thirty-nine weeks ended September 27, 2008.

Changes in Financial Condition and Results of Operations

Management believes the Company’s success principally depends on its ability to generate freight through its network of independent commission sales agents and to efficiently deliver that freight utilizing third party capacity providers. Management believes the most significant factors to the Company’s success include increasing revenue, sourcing capacity and controlling costs.

While customer demand, which is subject to overall economic conditions, ultimately drives increases or decreases in revenue, the Company primarily relies on its independent commission sales agents to establish customer relationships and generate revenue opportunities. Management’s primary focus with respect to revenue growth is on revenue generated by independent commission sales agents who on an annual basis generate \$1 million or more of Landstar revenue (“Million Dollar Agents”). Management believes future revenue growth is primarily dependent on its ability to increase both the revenue generated by Million Dollar Agents and the number of Million Dollar Agents through a combination of recruiting new agents and increasing the revenue opportunities generated

[Table of Contents](#)

by existing independent commission sales agents. During the 2007 fiscal year, 495 independent commission sales agents generated \$1 million or more of Landstar revenue and thus qualified as Million Dollar Agents. During the 2007 fiscal year, the average revenue generated by a Million Dollar Agent was \$4,571,000 and revenue generated by Million Dollar Agents in the aggregate represented 91% of consolidated Landstar revenue. The Company had 1,403 and 1,414 agent locations at September 27, 2008 and September 29, 2007, respectively.

Management monitors business activity by tracking the number of loads (volume) and revenue per load. Revenue per load can be influenced by many factors other than a change in price. Those factors include the average length of haul, freight type, special handling and equipment requirements and delivery time requirements. For shipments involving two or more modes of transportation, revenue is classified by the mode of transportation having the highest cost for the load. The following table summarizes this data by mode of transportation:

	Thirty Nine Weeks Ended		Thirteen Weeks Ended	
	Sept 27, 2008	Sept 29, 2007	Sept 27, 2008	Sept 29, 2007
Revenue generated through (in thousands):				
BCO Independent Contractors	\$1,070,982	\$1,036,155	\$ 370,787	\$ 351,451
Truck Brokerage Carriers	766,262	648,267	275,928	225,300
Rail intermodal	106,936	91,931	35,338	34,254
Ocean cargo carriers	29,329	18,691	11,109	7,152
Air cargo carriers	10,135	15,412	2,686	4,606
Other (1)	55,588	33,956	36,905	12,048
	<u>\$2,039,232</u>	<u>\$ 1,844,412</u>	<u>\$ 732,753</u>	<u>\$ 634,811</u>
Number of loads:				
BCO Independent Contractors	638,330	646,720	209,250	213,350
Truck Brokerage Carriers	435,250	441,010	146,280	152,160
Rail intermodal	45,610	43,240	14,610	16,480
Ocean cargo carriers	3,990	3,330	1,400	1,230
Air cargo carriers	5,520	9,260	1,650	2,820
	<u>1,128,700</u>	<u>1,143,560</u>	<u>373,190</u>	<u>386,040</u>
Revenue per load:				
BCO Independent Contractors	\$ 1,678	\$ 1,602	\$ 1,772	\$ 1,647
Truck Brokerage Carriers	1,761	1,470	1,886	1,481
Rail intermodal	2,345	2,126	2,419	2,079
Ocean cargo carriers	7,351	5,613	7,935	5,815
Air cargo carriers	1,836	1,664	1,628	1,633

(1) Includes premium revenue generated by the insurance segment and warehousing revenue generated by the Transportation Logistics segment. Also, included in the 2008 thirty-nine-week and thirteen-week periods was \$27,638,000 of Bus Revenue. Included in the 2007 thirty-nine-week and thirteen-week periods was \$6,209,000 and \$2,764,000, respectively, of revenue derived from transportation services provided in support of disaster relief efforts provided under a contract between Landstar Express America, Inc. and the United States Department of Transportation/Federal Aviation Administration.

[Table of Contents](#)

Also critical to the Company's success is its ability to secure capacity, particularly truck capacity, at rates that allow the Company to profitably transport customers' freight. The following table summarizes available truck capacity providers as of September 27, 2008 and September 29, 2007:

	<u>Sept 27,</u> <u>2008</u>	<u>Sept 29,</u> <u>2007</u>
BCO Independent Contractors	8,363	8,452
Truck Brokerage Carriers:		
Approved and active ⁽¹⁾	16,400	15,765
Other approved	9,120	9,224
	<u>25,520</u>	<u>24,989</u>
Total available truck capacity providers	<u>33,883</u>	<u>33,441</u>
Number of trucks provided by BCO Independent Contractors	<u>8,949</u>	<u>9,056</u>

(1) Active refers to Truck Brokerage Carriers who moved at least one load in the 180 days immediately preceding the fiscal quarter end.

The Company incurs costs that are directly related to the transportation of freight that include purchased transportation and commissions to agents. The Company incurs indirect costs associated with the transportation of freight that include other operating costs and insurance and claims. In addition, the Company incurs selling, general and administrative costs essential to administering its business operations. Management continually monitors all components of the costs incurred by the Company and establishes annual cost budgets which, in general, are used to benchmark costs incurred on a monthly basis.

Purchased transportation represents the amount a capacity provider is paid to haul freight. The amount of purchased transportation paid to a BCO Independent Contractor is primarily based on a contractually agreed-upon percentage of revenue generated by the haul. Purchased transportation paid to a Truck Brokerage Carrier is based on either a negotiated rate for each load hauled or a contractually agreed-upon rate. Purchased transportation paid to rail intermodal, air cargo and ocean cargo carriers is based on contractually agreed-upon fixed rates. Purchased transportation paid to bus capacity providers was based on a contractually agreed-upon rate. Purchased transportation as a percentage of revenue with respect to services provided by Truck Brokerage Carriers, rail intermodal carriers, ocean cargo carriers and bus capacity providers is normally higher than that provided by BCO Independent Contractors and air cargo carriers. Purchased transportation is the largest component of costs and expenses and, on a consolidated basis, increases or decreases in proportion to the revenue generated through BCO Independent Contractors and other third party capacity providers and revenue from the insurance segment. Purchased transportation costs are recognized upon the completion of freight delivery.

Commissions to agents are based on contractually agreed-upon percentages of revenue or gross profit, defined as revenue less the cost of purchased transportation. No commissions to agents were incurred in connection with the 2008 Bus Revenue. Commissions to agents as a percentage of consolidated revenue will vary directly with fluctuations in the percentage of consolidated revenue generated by the various modes of transportation and the insurance segment and with changes in gross profit on services provided by Truck Brokerage Carriers, rail intermodal carriers, air cargo carriers, ocean cargo carriers and bus capacity providers. Commissions to agents are recognized upon the completion of freight delivery.

Rent and maintenance costs for Company-provided trailing equipment, BCO Independent Contractor recruiting costs and bad debts from BCO Independent Contractors and independent commission sales agents are the largest components of other operating costs.

Potential liability associated with accidents in the trucking industry is severe and occurrences are unpredictable. Landstar's retained liability for individual commercial trucking claims varies depending on when such claims are incurred. For commercial trucking claims incurred prior to June 19, 2003 and subsequent to March 30, 2004, Landstar retains liability up to \$5,000,000 per occurrence. For commercial trucking claims incurred from June 19, 2003 through March 30, 2004, Landstar retains liability up to \$10,000,000 per occurrence. The Company also retains liability for each general liability claim up to \$1,000,000, \$250,000 for each workers' compensation claim and \$100,000 for each cargo claim. Prior to May 1, 2008, the Company retained cargo liability for each cargo claim up to \$250,000. The Company's exposure to liability associated with accidents incurred by Truck Brokerage Carriers, rail intermodal carriers, air cargo carriers and ocean cargo carriers who transport freight on behalf of the Company and bus capacity providers who provide bus capacity to the Company is reduced by various factors including the extent to which they maintain their own insurance coverage. A material increase in the frequency or severity of accidents, cargo claims or workers' compensation claims or the unfavorable development of existing claims could have a material adverse effect on Landstar's results of operations.

Employee compensation and benefits account for over half of the Company's selling, general and administrative costs.

Depreciation and amortization primarily relate to depreciation of trailing equipment and management information services equipment.

[Table of Contents](#)

The following table sets forth the percentage relationships of income and expense items to revenue for the periods indicated:

	Thirty Nine Weeks Ended		Thirteen Weeks Ended	
	Sept 27, 2008	Sept 29, 2007	Sept 27, 2008	Sept 29, 2007
Revenue	100.0%	100.0%	100.0%	100.0%
Investment income	0.1	0.2	0.1	0.2
Costs and expenses:				
Purchased transportation	77.1	75.6	77.8	75.9
Commissions to agents	7.5	8.1	7.4	8.1
Other operating costs	1.0	1.1	0.9	1.3
Insurance and claims	1.3	2.1	1.1	1.5
Selling, general and administrative	5.2	5.1	4.7	4.9
Depreciation and amortization	0.8	0.8	0.7	0.7
Total costs and expenses	<u>92.9</u>	<u>92.8</u>	<u>92.6</u>	<u>92.4</u>
Operating income	7.2	7.4	7.5	7.8
Interest and debt expense	<u>0.3</u>	<u>0.2</u>	<u>0.3</u>	<u>0.3</u>
Income before income taxes	6.9	7.2	7.2	7.5
Income taxes	<u>2.7</u>	<u>2.8</u>	<u>2.7</u>	<u>2.9</u>
Net income	<u>4.2%</u>	<u>4.4%</u>	<u>4.5%</u>	<u>4.6%</u>

THIRTY NINE WEEKS ENDED SEPTEMBER 27, 2008 COMPARED TO THIRTY NINE WEEKS ENDED SEPTEMBER 29, 2007

Revenue for the 2008 thirty-nine-week period was \$2,039,232,000, an increase of \$194,820,000, or 10.6%, compared to the 2007 thirty-nine-week period. Revenue increased \$195,015,000, or 10.7%, at the transportation logistics segment primarily due to an 18% increase in revenue hauled by Truck Brokerage Carriers, increased revenue hauled by BCO Independent Contractors and rail intermodal and ocean cargo carriers and \$27,638,000 of revenue for bus capacity provided for evacuation assistance related to the storms that impacted the Gulf Coast in September 2008 (“Bus Revenue”), partially offset by lower revenue hauled by air cargo carriers. The number of loads in the 2008 period hauled by Business Capacity Owners and Truck Brokerage Carriers each decreased 1% compared to the number of loads hauled in the 2007 period. Loads hauled by rail intermodal and ocean cargo carriers increased 5% and 20%, respectively, over the 2007 period, while loads hauled by air cargo carriers decreased 40% compared to the 2007 period. Revenue per load for loads hauled by Truck Brokerage Carriers, BCO Independent Contractors and rail intermodal, air cargo and ocean cargo carriers increased 20%, 5%, 10%, 10% and 31%, respectively, over the 2007 period. The increase in revenue per load hauled by Truck Brokerage Carriers and rail intermodal, air cargo and ocean cargo carriers was partly attributable to increased fuel surcharges billed to customers in the 2008 period. Fuel surcharges billed to customers on revenue hauled by BCO Independent Contractors are excluded from revenue.

Investment income at the insurance segment was \$2,686,000 and \$4,103,000 in the 2008 and 2007 thirty-nine-week periods, respectively. The decrease in investment income was primarily due to a decreased rate of return, attributable to a general decrease in interest rates, on investments held by the insurance segment in the 2008 period.

Purchased transportation was 77.1% and 75.6% of revenue in the 2008 and 2007 thirty-nine-week periods, respectively. The increase in purchased transportation as a percentage of revenue was primarily attributable to increased rates of purchased transportation paid to Truck Brokerage Carriers, increased revenue hauled by Truck Brokerage Carriers, rail intermodal carriers and ocean cargo carriers, all of which tend to have a higher cost of purchased transportation, and the effect of Bus Revenue, which also has a higher rate of purchased transportation than revenue hauled by BCO Independent Contractors. Commissions to agents were 7.5% of revenue in the 2008 period and 8.1% of revenue in the 2007 period. The decrease in commissions to agents as a percentage of revenue was primarily attributable to decreased gross profit on revenue hauled by Truck Brokerage Carriers and the effect of Bus Revenue. Other operating costs were 1.0% and 1.1% of revenue in the 2008 and 2007 periods, respectively. The decrease in other operating costs as a percentage of revenue was primarily attributable to the effect of increased revenue hauled by Truck Brokerage Carriers, rail intermodal carriers and ocean cargo carriers in the 2008 thirty-nine-week period, none of which incur significant other operating costs, partially offset by lower gains on the sales of trailing equipment in the 2008 period compared to the 2007 period. Insurance and claims were 1.3% of revenue in the 2008 period, compared with 2.1% of revenue in the 2007 period. The decrease in insurance and claims as a percentage of revenue was primarily due to a \$5,000,000 charge for the estimated cost of one severe accident that occurred during the first quarter of 2007, favorable development of prior year claims in 2008 and a lower cost of cargo claims in the 2008 period. Selling, general and administrative costs were 5.2% of revenue in the 2008 period, compared with 5.1% of revenue in the 2007 period. The increase in selling, general and administrative costs as a percentage of revenue was primarily attributable to an increased provision for bonuses under the Company’s incentive compensation programs, partially offset by the effect of increased revenue. Depreciation and amortization was 0.8% of revenue in each of the 2008 and 2007 periods.

[Table of Contents](#)

Interest and debt expense was 0.3% and 0.2% of revenue in the 2008 and 2007 thirty-nine-week periods, respectively. The increase in interest and debt expense as a percentage of revenue was primarily due to higher average borrowings on the Company's senior credit facility in the 2008 period, partially offset by lower interest rates on borrowings under the senior credit facility.

The provisions for income taxes for the 2008 and 2007 thirty-nine-week periods were based on estimated full year combined effective income tax rates of approximately 38.4% and 38.7%, respectively, which were higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock compensation expense.

Net income was \$86,325,000, or \$1.64 per common share (\$1.62 per diluted share), in the 2008 thirty-nine-week period. Net income was \$80,622,000, or \$1.46 per common share (\$1.45 per diluted share), in the 2007 thirty-nine-week period. Included in the 2008 thirty-nine-week period is operating income of \$2,870,000 related to the \$27,638,000 of Bus Revenue. The \$2,870,000 of operating income, net of related income taxes, increased 2008 thirty-nine-week period net income by \$1,722,000, or \$0.03 per common share (\$0.03 per diluted share). Included in the 2007 thirty-nine-week period is approximately \$1,638,000 of operating income related to \$6,209,000 of revenue attributable to disaster relief services provided under the former contract between Landstar Express America, Inc. and the U.S. Department of Transportation/Federal Aviation Administration (the "FAA"). The \$1,638,000 of operating income, net of related income taxes, increased net income by \$1,009,000, or \$0.02 per common share (\$0.02 per diluted share) in the 2007 period. Also included in the 2007 thirty-nine-week period was a \$5,000,000 charge for the estimated cost of one severe accident that occurred during the first quarter of 2007. This charge, net of related income tax benefits, reduced 2007 thirty-nine-week period net income by \$3,065,000, or \$0.06 per common share (\$0.05 per diluted share).

THIRTEEN WEEKS ENDED SEPTEMBER 27, 2008 COMPARED TO THIRTEEN WEEKS ENDED SEPTEMBER 29, 2007

Revenue for the 2008 thirteen-week period was \$732,753,000, an increase of \$97,942,000, or 15.4%, compared to the 2007 thirteen-week period. Revenue increased \$97,954,000, or 15.7%, at the transportation logistics segment. The increase in revenue at the transportation logistics segment was primarily attributable to a 22% increase in revenue hauled by Truck Brokerage Carriers, Bus Revenue of \$27,638,000 in the 2008 period and increased revenue hauled by BCO Independent Contractors, rail intermodal carriers and ocean cargo carriers, partially offset by lower revenue hauled by air cargo carriers. The number of loads in the 2008 period hauled by Truck Brokerage Carriers, BCO Independent Contractors, air cargo carriers and rail intermodal carriers decreased 4%, 2%, 41% and 11%, respectively, compared to the 2007 period, while the number of loads hauled by ocean cargo carriers increased 14% over the same period. Revenue per load for loads hauled by Truck Brokerage Carriers, BCO Independent Contractors and rail intermodal and ocean cargo carriers increased 27%, 8%, 16% and 36%, respectively, over the 2007 period. Revenue per load for loads hauled by air cargo carriers was approximately equal to the revenue per load in the 2007 period. The increase in revenue per load hauled by Truck Brokerage Carriers, rail intermodal and ocean carriers was partially attributable to increased fuel surcharges billed to customers in the 2008 period.

Investment income at the insurance segment was \$817,000 and \$1,106,000 in the 2008 and 2007 thirteen-week periods, respectively. The decrease in investment income was primarily due to a decreased rate of return, attributable to a general decrease in interest rates, on investments held by the insurance segment in the 2008 period.

Purchased transportation was 77.8% and 75.9% of revenue in the 2008 and 2007 thirteen-week periods, respectively. The increase in purchased transportation as a percentage of revenue was primarily attributable to increased rates of purchased transportation paid to Truck Brokerage Carriers and the effect of Bus Revenue. Commissions to agents were 7.4% of revenue in the 2008 period and 8.1% of revenue in the 2007 period. The decrease in commissions to agents as a percentage of revenue was primarily attributable to the effect of Bus Revenue and decreased gross profit on revenue hauled by Truck Brokerage Carriers. Other operating costs were 0.9% and 1.3% of revenue in the 2008 and 2007 periods, respectively. The decrease in other operating costs as a percentage of revenue was primarily attributable to increased revenue hauled by Truck Brokerage Carriers and ocean cargo carriers, neither of which incur significant other operating expenses and higher 2007 trailing equipment rental costs incurred to support disaster relief services provided under a contract with the FAA. Insurance and claims were 1.1% of revenue in the 2008 period, compared with 1.5% of revenue in the 2007 period. The decrease in insurance and claims as a percentage of revenue was primarily due to favorable development of prior year claims in 2008 and increased revenue hauled by Truck Brokerage Carriers and ocean cargo carriers, both of which have a lower claims risk profile. Selling, general and administrative costs were 4.7% of revenue in the 2008 period and 4.9% of revenue in the 2007 period. The decrease in selling, general and administrative costs as a percentage of revenue was primarily attributable to the effect of increased revenue, partially offset by an increased provision for bonuses under the Company's incentive compensation programs. Depreciation and amortization was 0.7% of revenue in both the 2008 and 2007 periods.

[Table of Contents](#)

Interest and debt expense was 0.3% of revenue in both the 2008 and 2007 thirteen-week periods.

The provisions for income taxes for the 2008 and 2007 thirteen-week periods were based on estimated full year combined effective income tax rates of approximately 38.0% and 38.7%, respectively, which were higher than the statutory federal income tax rate primarily as a result of state taxes, the meals and entertainment exclusion and non-deductible stock compensation expense. The decrease in the effective income tax rate was primarily attributable to the timing of certain discrete items reported in 2008.

Net income was \$32,817,000, or \$0.62 per common share (\$0.62 per diluted share), in the 2008 thirteen-week period, compared to \$29,348,000, or \$0.54 per common share (\$0.54 per diluted share), in the 2007 thirteen-week period. Included in the 2008 thirteen-week period is operating income of \$2,870,000 related to the \$27,638,000 of Bus Revenue. The \$2,870,000 of operating income, net of related income taxes, increased net income by \$1,722,000, or \$0.03 per common share (\$0.03 per diluted share). Included in the 2007 thirteen-week period is approximately \$624,000 of operating income related to the \$2,764,000 of revenue attributable to disaster relief services provided primarily under the former FAA contract. The \$642,000 of operating income, net of related income taxes, increased net income by \$394,000, or \$0.01 per common share (\$0.01 per diluted share).

CAPITAL RESOURCES AND LIQUIDITY

Shareholders' equity was \$252,093,000 at September 27, 2008, compared to \$180,786,000 at December 29, 2007. The increase in shareholders' equity was primarily a result of net income and the effect of the exercises of stock options during the period, partially offset by the purchase of 579,822 shares of the Company's common stock at a total cost of \$28,519,000 and dividends paid. The Company paid \$0.115 per share, or \$6,056,000, in cash dividends during the thirty-nine-week period ended September 27, 2008. It is the intention of the Board of Directors to continue to pay a quarterly dividend. As of September 27, 2008, the Company may purchase up to an additional 2,154,579 shares of its common stock under its authorized stock purchase programs. Shareholders' equity was 62% of total capitalization (defined as total debt plus equity) at September 27, 2008 compared to 52% at December 29, 2007.

Working capital and the ratio of current assets to current liabilities were \$253,924,000 and 1.9 to 1, respectively, at September 27, 2008, compared with \$184,078,000 and 1.7 to 1, respectively, at December 29, 2007. Landstar has historically operated with current ratios within the range of 1.5 to 1 to 2.0 to 1. Cash provided by operating activities was \$50,358,000 in the 2008 thirty-nine-week period compared with \$111,988,000 in the 2007 thirty-nine-week period. The decrease in cash flow provided by operating activities was primarily attributable to the timing of collections of trade receivables.

Long-term debt, including current maturities, was \$157,081,000 at September 27, 2008, \$7,672,000 lower than at December 29, 2007.

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the "Credit Agreement"). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees. The initial borrowing of \$67,000,000 under the Credit Agreement was used to refinance \$67,000,000 of outstanding borrowings under the prior credit agreement, which was terminated in connection with the Credit Agreement.

The Credit Agreement contains a number of covenants that limit, among other things, the incurrence of additional indebtedness. The Company is required to, among other things, maintain a minimum Fixed Charge Coverage Ratio, as defined in the Credit Agreement, and maintain a Leverage Ratio below a specified maximum. The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement under certain circumstances limits the amount of such cash dividends and other distributions to stockholders in the event that after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter. The Credit Agreement provides for an event of default in the event, among other things, that a person or group acquires 25% or more of the outstanding capital stock of the Company or obtains power to elect a majority of the Company's directors. None of these covenants are presently considered by management to be materially restrictive to the Company's operations, capital resources or liquidity. The Company is currently in compliance with all of the debt covenants under the Credit Agreement.

At September 27, 2008, the Company had \$87,000,000 in borrowings outstanding and \$28,032,000 of letters of credit outstanding under the Credit Agreement. At September 27, 2008, there was \$109,968,000 available for future borrowings under the Credit Agreement. In addition, the Company has \$48,148,000 in letters of credit outstanding, as collateral for insurance claims, that are secured by investments and cash equivalents totaling \$50,083,000. Investments, all of which are carried at fair value, consist of investment-grade bonds having maturities of up to five years. Fair value of investments is based primarily on quoted market prices.

[Table of Contents](#)

Historically, the Company has generated sufficient operating cash flow to meet its debt service requirements, fund continued growth, both internal and through acquisitions, complete or execute share purchases of its common stock under authorized share purchase programs, pay dividends and meet working capital needs. As a non-asset based provider of transportation capacity and logistics services, the Company's annual capital requirements for operating property are generally for trailing equipment and management information services equipment. In addition, a portion of the trailing equipment used by the Company is provided by third party capacity providers, thereby reducing the Company's capital requirements. During the 2008 thirty-nine-week period, the Company purchased \$4,903,000 of operating property and acquired \$2,714,000 of trailing equipment by entering into capital leases. Landstar anticipates acquiring approximately \$4,000,000 of operating property, primarily trailing equipment, during the remainder of the 2008 fiscal year either by purchase or by lease financing.

Management believes that cash flow from operations combined with the Company's borrowing capacity under the Credit Agreement will be adequate to meet Landstar's debt service requirements, fund continued growth, both internal and through acquisitions, pay dividends, complete the authorized share purchase program and meet working capital needs.

LEGAL MATTERS

As further described in periodic and current reports previously filed by Landstar System, Inc. (the "Company") with the Securities and Exchange Commission, the Company and certain of its subsidiaries (the "Defendants") are defendants in a suit (the "Litigation") brought in the United States District Court for the Middle District of Florida (the "District Court") by the Owner-Operator Independent Drivers Association, Inc. ("OOIDA") and four former BCO Independent Contractors (the "Named Plaintiffs" and, with OOIDA, the "Plaintiffs") on behalf of all independent contractors who provide truck capacity to the Company and its subsidiaries under exclusive lease arrangements (the "BCO Independent Contractors"). The Plaintiffs allege that certain aspects of the Company's motor carrier leases and related practices with its BCO Independent Contractors violate certain federal leasing regulations and seek injunctive relief, an unspecified amount of damages and attorneys' fees.

On March 29, 2007, the District Court denied the request by Plaintiffs for injunctive relief, entered a judgment in favor of the Defendants and issued written orders setting forth its rulings related to the decertification of the plaintiff class and other important elements of the Litigation relating to liability, injunctive relief and monetary relief. The Plaintiffs filed an appeal with the United States Court of Appeals for the Eleventh Circuit (the "Appellate Court") of certain of the District Court's rulings in favor of the Defendants. The Defendants asked the Appellate Court to affirm such rulings and filed a cross-appeal with the Appellate Court with respect to certain other rulings of the District Court.

On September 3, 2008, the Appellate Court issued its ruling, which, among other things, affirmed the District Court's rulings that (i) the Defendants are not prohibited by the applicable federal leasing regulations from charging administrative or other fees to BCO Independent Contractors in connection with voluntary programs offered by the Defendants through which a BCO Independent Contractor may purchase discounted products and services for a charge that is deducted against the compensation payable to the BCO Independent Contractor (a "Charge-back Deduction"), (ii) the Plaintiffs are not entitled to restitution or disgorgement with respect to violations by Defendants of the applicable federal leasing regulations but instead may recover only actual damages, if any, which they sustained as a result of any such violations and (iii) the claims of BCO Independent Contractors may not be handled on a class action basis for purposes of determining the amount of actual damages, if any, they sustained as a result of any violations. Further, the analysis of the Appellate Court confirmed the absence of any violations alleged by the Plaintiffs of the federal leasing regulations with respect to the written terms of all leases currently in use between the Defendants and BCO Independent Contractors.

However, the ruling of the Appellate Court reversed the District Court's rulings (i) that an old version of the lease formerly used by Defendants but not in use with any current BCO Independent Contractor complied with applicable disclosure requirements under the federal leasing regulations with respect to adjustments to compensation payable to BCO Independent Contractors on certain loads sourced from the U. S. Dept. of Defense, and (ii) that the Defendants had provided sufficient documentation to BCO Independent Contractors under the applicable federal leasing regulations relating to how the component elements of Charge-back Deductions were computed. The Appellate Court then remanded the case to the District Court to permit the Plaintiffs to seek injunctive relief with respect to these violations of the federal leasing regulations and to hold an evidentiary hearing to give the Named Plaintiffs an opportunity to produce evidence of any damages they actually sustained as a result of such violations.

Each of the parties to the Litigation has filed a petition with the Appellate Court seeking rehearing of the Appellate Court's ruling; however, there can be no assurance that any petition for rehearing will be granted.

Although no assurances can be given with respect to the outcome of the Litigation, including any possible award of attorneys' fees to the Plaintiffs, the Company believes that (i) no Plaintiff has sustained any actual damages as a result of any violations by the Defendants of the federal leasing regulations and (ii) injunctive relief, if any, that may be granted by the District Court on remand is unlikely to have a material adverse financial effect on the Company.

[Table of Contents](#)

The Company is involved in certain other claims and pending litigation arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such other claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The allowance for doubtful accounts for both trade and other receivables represents management's estimate of the amount of outstanding receivables that will not be collected. Historically, management's estimates for uncollectible receivables have been materially correct. Although management believes the amount of the allowance for both trade and other receivables at September 27, 2008 is appropriate, a prolonged period of low or no economic growth may adversely affect the collection of these receivables. Conversely, a more robust economic environment may result in the realization of some portion of the estimated uncollectible receivables.

Landstar provides for the estimated costs of self-insured claims primarily on an actuarial basis. The amount recorded for the estimated liability for claims incurred is based upon the facts and circumstances known on the applicable balance sheet date. The ultimate resolution of these claims may be for an amount greater or less than the amount estimated by management. Historically, the Company has experienced both favorable and unfavorable development of prior years' claims estimates. The Company continually revises its existing claim estimates as new or revised information becomes available on the status of each claim. During the 2008 and 2007 thirty-nine-week periods, insurance and claims costs included \$10,002,000 and \$7,437,000, respectively, of favorable adjustments to prior years' claims estimates. It is reasonably likely that the ultimate outcome of settling all outstanding claims will be more or less than the estimated claims reserves at September 27, 2008.

The Company utilizes certain income tax planning strategies to reduce its overall cost of income taxes. Upon audit, it is possible that certain strategies might be disallowed resulting in an increased liability for income taxes. Certain of these tax planning strategies result in a level of uncertainty as to whether the related tax positions would result in a recognizable benefit. The Company has provided for its estimated exposure attributable to certain positions that create uncertainty in the level of income tax benefit that would ultimately be realized. Management believes that the provision for liabilities resulting from the uncertainty in certain income tax positions is appropriate. To date, the Company has not experienced an examination by governmental revenue authorities that would lead management to believe that the Company's past provisions for exposures related to the uncertainty of certain income tax positions are not appropriate.

Significant variances from management's estimates for the amount of uncollectible receivables, the ultimate resolution of claims or the provision for uncertainty in income tax positions can be expected to positively or negatively affect Landstar's earnings in a given quarter or year. However, management believes that the ultimate resolution of these items, given a range of reasonably likely outcomes, will not significantly affect the long-term financial condition of Landstar or its ability to fund its continuing operations.

EFFECTS OF INFLATION

Management does not believe inflation has had a material impact on the results of operations or financial condition of Landstar in the past five years. However, inflation higher than that experienced in the past five years might have an adverse effect on the Company's results of operations.

SEASONALITY

Landstar's operations are subject to seasonal trends common to the trucking industry. Results of operations for the quarter ending in March are typically lower than the quarters ending June, September and December.

FORWARD-LOOKING STATEMENTS

The following is a "safe harbor" statement under the Private Securities Litigation Reform Act of 1995. Statements contained in this document that are not based on historical facts are "forward-looking statements." This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements, such as statements which relate to Landstar's business objectives, plans, strategies and expectations. Terms such as "anticipates," "believes," "estimates," "expects," "plans," "predicts," "may," "should," "could," "will," the negative thereof and similar expressions are intended to identify forward-looking statements. Such statements are by nature subject to uncertainties and risks, including but not limited to: an increase in the frequency or severity of accidents or other claims; unfavorable development of existing accident claims; dependence on third party insurance companies; dependence on independent commission sales agents; dependence on third party capacity providers; substantial industry competition; dependence on key personnel; disruptions or failures in our computer systems; changes in fuel taxes; status of independent contractors; a downturn in economic growth or growth in the transportation sector; and other operational, financial or legal risks or uncertainties detailed in Landstar's Form 10-K for the 2007 fiscal year, described in Item 1A "Risk Factors", this report or in Landstar's other Securities and Exchange Commission filings from time to time. These risks and uncertainties could cause actual results or events to differ materially from historical results or those anticipated. Investors should not place undue reliance on such forward-looking statements and the Company undertakes no obligation to publicly update or revise any forward-looking statements.

[Table of Contents](#)

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to changes in interest rates as a result of its financing activities, primarily its borrowings on the revolving credit facility, and investing activities with respect to investments held by the insurance segment.

On June 27, 2008, Landstar entered into a credit agreement with a syndicate of banks and JPMorgan Chase Bank, N.A., as administrative agent (the "Credit Agreement"). The Credit Agreement, which expires on June 27, 2013, provides \$225,000,000 of borrowing capacity in the form of a revolving credit facility, \$75,000,000 of which may be utilized in the form of letter of credit guarantees.

Borrowings under the Credit Agreement bear interest at rates equal to, at the option of the Company, either (i) the greater of (a) the prime rate as publicly announced from time to time by JPMorgan Chase Bank, N.A. and (b) the federal funds effective rate plus .5%, or, (ii) the rate at the time offered to JPMorgan Chase Bank, N.A. in the Eurodollar market for amounts and periods comparable to the relevant loan plus, in either case, a margin that is determined based on the level of the Company's Leverage Ratio, as defined in the Credit Agreement. As of September 27, 2008, the weighted average interest rate on borrowings outstanding was 3.90%. During the third quarter of 2008, the average outstanding balance under the Credit Agreement was approximately \$92,066,000. Based on the borrowing rates in the Credit Agreement and the repayment terms, the fair value of the outstanding borrowings as of September 27, 2008 was estimated to approximate carrying value. Assuming that debt levels on the Credit Agreement remain at \$87,000,000, the balance at September 27, 2008, a hypothetical increase of 100 basis points in current rates provided for under the Credit Agreement is estimated to result in an increase in interest expense of \$870,000 on an annualized basis.

All amounts outstanding under the Credit Agreement are payable on June 27, 2013, the expiration date of the Credit Agreement.

Long-term investments, all of which are available-for-sale, consist of investment grade bonds having maturities of up to five years. Assuming that the long-term portion of investments in bonds remains at \$15,344,000, the balance at September 27, 2008, a hypothetical increase or decrease in interest rates of 100 basis points would not have a material impact on future earnings on an annualized basis. Short-term investments consist of short-term investment grade instruments and the current maturities of investment grade bonds. Accordingly, any future interest rate risk on these short-term investments would not be material.

Item 4. Controls and Procedures

As of the end of the period covered by this quarterly report on Form 10-Q, an evaluation was carried out, under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended). Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of September 27, 2008, to provide reasonable assurance that information required to be disclosed by the Company in reports that it filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

There were no significant changes in the Company's internal controls over financial reporting during the Company's fiscal quarter ended September 27, 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

In designing and evaluating controls and procedures, Company management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitation in any control system, no evaluation or implementation of a control system can provide complete assurance that all control issues and all possible instances of fraud have been or will be detected.

PART II
OTHER INFORMATION

Item 1. Legal Proceedings

As further described in periodic and current reports previously filed by Landstar System, Inc. (the “Company”) with the Securities and Exchange Commission, the Company and certain of its subsidiaries (the “Defendants”) are defendants in a suit (the “Litigation”) brought in the United States District Court for the Middle District of Florida (the “District Court”) by the Owner-Operator Independent Drivers Association, Inc. (“OOIDA”) and four former BCO Independent Contractors (the “Named Plaintiffs” and, with OOIDA, the “Plaintiffs”) on behalf of all independent contractors who provide truck capacity to the Company and its subsidiaries under exclusive lease arrangements (the “BCO Independent Contractors”). The Plaintiffs allege that certain aspects of the Company’s motor carrier leases and related practices with its BCO Independent Contractors violate certain federal leasing regulations and seek injunctive relief, an unspecified amount of damages and attorneys’ fees.

On March 29, 2007, the District Court denied the request by Plaintiffs for injunctive relief, entered a judgment in favor of the Defendants and issued written orders setting forth its rulings related to the decertification of the plaintiff class and other important elements of the Litigation relating to liability, injunctive relief and monetary relief. The Plaintiffs filed an appeal with the United States Court of Appeals for the Eleventh Circuit (the “Appellate Court”) of certain of the District Court’s rulings in favor of the Defendants. The Defendants asked the Appellate Court to affirm such rulings and filed a cross-appeal with the Appellate Court with respect to certain other rulings of the District Court.

On September 3, 2008, the Appellate Court issued its ruling, which, among other things, affirmed the District Court’s rulings that (i) the Defendants are not prohibited by the applicable federal leasing regulations from charging administrative or other fees to BCO Independent Contractors in connection with voluntary programs offered by the Defendants through which a BCO Independent Contractor may purchase discounted products and services for a charge that is deducted against the compensation payable to the BCO Independent Contractor (a “Charge-back Deduction”), (ii) the Plaintiffs are not entitled to restitution or disgorgement with respect to violations by Defendants of the applicable federal leasing regulations but instead may recover only actual damages, if any, which they sustained as a result of any such violations and (iii) the claims of BCO Independent Contractors may not be handled on a class action basis for purposes of determining the amount of actual damages, if any, they sustained as a result of any violations. Further, the analysis of the Appellate Court confirmed the absence of any violations alleged by the Plaintiffs of the federal leasing regulations with respect to the written terms of all leases currently in use between the Defendants and BCO Independent Contractors.

However, the ruling of the Appellate Court reversed the District Court’s rulings (i) that an old version of the lease formerly used by Defendants but not in use with any current BCO Independent Contractor complied with applicable disclosure requirements under the federal leasing regulations with respect to adjustments to compensation payable to BCO Independent Contractors on certain loads sourced from the U. S. Dept. of Defense, and (ii) that the Defendants had provided sufficient documentation to BCO Independent Contractors under the applicable federal leasing regulations relating to how the component elements of Charge-back Deductions were computed. The Appellate Court then remanded the case to the District Court to permit the Plaintiffs to seek injunctive relief with respect to these violations of the federal leasing regulations and to hold an evidentiary hearing to give the Named Plaintiffs an opportunity to produce evidence of any damages they actually sustained as a result of such violations.

Each of the parties to the Litigation has filed a petition with the Appellate Court seeking rehearing of the Appellate Court’s ruling; however, there can be no assurance that any petition for rehearing will be granted.

Although no assurances can be given with respect to the outcome of the Litigation, including any possible award of attorneys’ fees to the Plaintiffs, the Company believes that (i) no Plaintiff has sustained any actual damages as a result of any violations by the Defendants of the federal leasing regulations and (ii) injunctive relief, if any, that may be granted by the District Court on remand is unlikely to have a material adverse financial effect on the Company.

The Company is involved in certain other claims and pending litigation arising from the normal conduct of business. Based on knowledge of the facts and, in certain cases, opinions of outside counsel, management believes that adequate provisions have been made for probable losses with respect to the resolution of all such other claims and pending litigation and that the ultimate outcome, after provisions therefor, will not have a material adverse effect on the financial condition of the Company, but could have a material effect on the results of operations in a given quarter or year.

Item 1A. Risk Factors

For a discussion identifying risk factors and other important factors that could cause actual results to differ materially from those anticipated, see the discussions under Part I, Item 1A, “Risk Factors” in the Company’s Annual Report on Form 10-K for the fiscal year ended December 29, 2007, and in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Notes to Consolidated Financial Statements” and as set forth immediately below in this Quarterly Report on Form 10-Q.

[Table of Contents](#)*Concentrations of Credit Risk in Key Customers*

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of accounts receivable from trade customers. The Company performs ongoing credit evaluations of the financial condition of its customers and an allowance for doubtful accounts is maintained as required under U.S. generally accepted accounting principles. Credit risk with respect to the Company's accounts receivable historically has been broadly diversified due to the large number of entities comprising the Company's customer base and their dispersion across many different industries and geographical regions. No single customer accounted for more than 10% of Company revenue for the thirty-nine-week period ended September 27, 2008, and no single customer accounted for more than 10% of the gross accounts receivable balance at September 27, 2008. It should be noted, however, that revenue from customers in the automotive sector represented in the aggregate approximately 7% of the Company's revenue for the 2008 thirty-nine-week period. The Company estimates that receivable balances relating to customers with a significant concentration of their business either in the automotive industry or directly impacted by the financial condition of the larger U.S. domestic automobile manufacturers represented approximately 6% to 8% of gross accounts receivable at September 27, 2008. The financial condition of the U.S. domestic automotive industry may be significantly adversely affected by the availability of credit to U.S. consumers and the overall financial condition of the U.S. economy, both of which have recently weakened. A significant deterioration in the financial condition or operations of the Company's customers within the automotive sector, including the larger U.S. domestic automobile manufacturers and their vendors, suppliers and other service providers, could negatively impact the collectability of trade accounts receivable due from these customers, which could result in an adverse effect on the Company's operating results in a given quarter or year.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Company

The following table provides information regarding the Company's purchases of its common stock during the period from June 29, 2008 to September 27, 2008, the Company's third fiscal quarter:

<u>Fiscal period</u>	<u>Total number of shares purchased</u>	<u>Average price paid per share</u>	<u>Total number of shares purchased as part of publicly announced programs</u>	<u>Maximum number of shares that may yet be purchased under the programs</u>
June 28, 2008				734,401
June 29, 2008 – July 26, 2008	429,822	\$ 49.63	429,822	2,304,579
July 27, 2008 – Aug. 23, 2008				2,304,579
Aug. 24, 2008 – Sept. 27, 2008	150,000	\$ 47.90	150,000	2,154,579
Total	<u>579,822</u>	<u>\$ 49.19</u>	<u>579,822</u>	

On August 27, 2007, Landstar System, Inc. announced that it had been authorized by its Board of Directors to purchase up to an additional 2,000,000 shares of its common stock from time to time in the open market and in privately negotiated transactions. As of September 27, 2008, the Company may purchase 154,579 shares of its common stock under this authorization. On July 16, 2008, Landstar System, Inc. announced that it had been authorized by its Board of Directors to purchase up to an additional 2,000,000 shares of its common stock from time to time in the open market and in privately negotiated transactions. No specific expiration date has been assigned to either the August 27, 2007 or July 16, 2008 authorizations.

During the thirty-nine-week period ended September 27, 2008, Landstar paid dividends as follows:

<u>Dividend Amount per share</u>	<u>Declaration Date</u>	<u>Record Date</u>	<u>Payment Date</u>
\$0.0375	January 31, 2008	February 8, 2008	February 29, 2008
\$0.0375	April 17, 2008	May 9, 2008	May 30, 2008
\$0.0400	July 16, 2008	August 11, 2008	August 29, 2008

The Credit Agreement provides for a restriction on cash dividends and other distributions to stockholders on the Company's capital stock to the extent there is a default under the Credit Agreement. In addition, the Credit Agreement under certain circumstances limits the amount of such cash dividends and other distributions to stockholders in the event that after giving effect to any payment made to effect such cash dividend or other distribution, the Leverage Ratio would exceed 2.5 to 1 on a pro forma basis as of the end of the Company's most recently completed fiscal quarter.

SECTION 302 CERTIFICATION

I, Henry H. Gerkens, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Landstar System, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Landstar System, Inc. (the "Company") on Form 10-Q for the period ending September 27, 2008, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Henry H. Gerkens, President and Chief Executive Officer of the Company, certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities and Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
