Forward-Looking Statements Disclaimer

The following is a “safe harbor” statement under the Private Securities Litigation Reform Act of 1995. Statements made in this slide presentation that are not based on historical facts are “forward-looking statements.” This presentation may make certain statements containing forward-looking statements, such as statements which relate to Landstar’s business objectives, plans, strategies and expectations. Such statements are by nature subject to uncertainties and risks, including but not limited to: the operational, financial or legal risks or uncertainties detailed in Landstar’s Form 10-K for the 2023 fiscal year, described in the section Risk Factors, and other SEC filings from time to time. These risks and uncertainties could cause actual results or events to differ materially from historical results or those anticipated. Investors should not place undue reliance on such forward-looking statements, and the Company undertakes no obligation to publicly update or revise any forward-looking statements.

2Q | 2024

Non-GAAP Financial Measures

In this slide presentation, the Company provides the following information that may be deemed a non-GAAP financial measure: variable contribution, variable contribution margin and operating income as a percentage of variable contribution.

Management believes variable contribution and variable contribution margin are useful measures of the variable costs that we incur at a shipment-by-shipment level attributable to our transportation network of third-party capacity providers and independent agents in order to provide services to our customers. Management believes that operating income as a percentage of variable contribution is a useful measure as: (i) variable costs of revenue for a significant portion of the Company's business are highly influenced by short-term market-based trends in the freight transportation industry, whereas other costs, including other costs of revenue, are much less impacted by short-term freight market trends; and (ii) this measure is meaningful to investors' evaluations of the Company's management of costs attributable to operations other than the purely variable costs associated with purchased transportation and commissions to agents that the Company incurs to provide services to our customers.

Management also believes that it is appropriate to present each of the financial measures that may be deemed a non-GAAP financial measure, as referred to above, for the following reasons: (1) disclosure of these matters will allow investors to better understand the underlying trends in the Company's financial condition and results of operations; (2) this information will facilitate comparisons by investors of the Company's results as compared to the results of peer companies; and (3) management considers this financial information in its decision making.

A tabulation of the expenses identified as costs of revenue as well as a reconciliation of gross profit to variable contribution and gross profit margin to variable contribution margin for the 2024 and 2023 second quarters and year-to-date periods is included in this slide presentation within the Appendix.

(1) Gross profit equals revenue less the cost of purchased transportation, commissions to agents and other costs of revenue. Gross profit margin equals gross profit divided by revenue.

(2) Variable contribution (VC) equals revenue less the cost of purchased transportation and commissions to agents. Variable contribution margin equals VC divided by revenue.

(3) Revenue on transactions where the Company's variable contribution margin was based on a contractually pre-determined percentage of revenue accounted for 43% and 42% of revenue in the 2024 and 2023 second quarters, respectively.
